THE Seventh Regiment of New York City is going to build a new armory to cost \$100,000.

MARY ANDERSON played in New Haven last week, and was presented with a beautiful bouquet by the junior class of Yale College.

THE desertion of Tilden by the Sun leaves him without a friend of any consequence among the newspapers of New York City.

INDICATIONS: For Tennessee and the Ohio Valley, warmer cloudy weather, with frequent rains easterly winds, veering to southerly and generally lower pressure.

THE New York Sun, which has heretofore been one of his warmest supporters, discards Mr. Tilden, and in doing so has created quite a sensation in Democratic circles in that State and elsewhere.

COMMISSIONER RAUM, in his forthcoming report will oppose any reduction of the tax on tobacco for two reasons. First, because the Government needs the money, and secondly because it would tend to unsettle business.

HOK, ZACH, CHANDLER has called upon the President and this is the signal for the Democratic newspapers to turn loose the floodgates of abuse upon our Chief Magistrate. They say his message will be inspired with the "bloody shirt" spirit and modeled after "Grant's annual indictments of the South."

THE anger of Waterson, of the Courier Journal, the leading Democratic paper in the South, at the Greenbackers, knows no bounds. He says:

"Let the leaders of the Greenback guerrillas, the Butler banditti, the Duncan greasers, and the Denis Kearney sans culottes all disband their shabby caucuses of a calm world and a long peace, and tell them to go to work and drive from their firebrands that famine their political bummering has sent to prey upon their wives and children, and they will soon have less cause to complain of hard times."

Again he remarks:

"And now that the jig is up, let us hear no more of this Greenback damphoolism which came so near upsetting the Democratic hay-cart in so many Congressional Districts."

Mayor Luttrell's Announcement.

Elsewhere appears the announcement of Mr. S. B. Luttrell as a candidate for re-election to the office of Mayor. Mr. Luttrell has served the city in the capacity of Alderman for several terms, and has for some time filled the position of Mayor to entire satisfaction.

He is one of our most enterprising and successful merchants; is a gentleman of the strictest integrity, of excellent business qualifications, and no man in the community stands higher in the estimation of the citizens generally.

NEW YORK.

NEW YORK, Nov. 14.—It is reported that the body of A. T. Stewart was taken to Canada and was concealed there. The thieves who demand a ransom of \$100,000 for the remains, have placed the matter in the hands of a Montreal lawyer and are negotiating through him. As there is no treaty governing cases of this kind, it will be impossible to arrest the ghouls. Another report says the body is hidden at or near Shamong, Burlington county, New Jersey, 40 miles southeast of Camden, and that the thieves can be arrested at any moment.

Prof. Edison has ceased experimenting on the Metropolitan Elevated railway, with a view to the discovery of some means to deaden sound, and has severed his connection with the company. It is reported that he has discontinued experiments with electric light in consequence of ill health.

The United States Government has, through a banking house in this city, completed the purchase of sterling exchange to the amount of £1,100,000 to meet the \$5,500,000 required by the Halifax award, to be paid to the British Government at London on 23d inst., and the agents of the United States Treasury Department will make the transfer at London on that date.

NEW YORK, Nov. 15.—The Times says that official permission is given it to announce the discovery of A. T. Stewart's remains and each robber. The evidence is nearly complete to send each to prison, and the officers are ready to arrest them, and are only awaiting the signal. Names are not mentioned, but some are highly respectable—one a prominent attorney. The principal perpetrator is out of town, but is shadowed. All the others are in New York. Three sets of detectives are engaged, one under Chief Kealy, another under Inspector Murray, and the third under Mr. Hilton. All are concentrated on the same clues, the parties having been a different set from ordinary robbers. The conspiracy was arranged with great care. Three persons hired a room, 44 Stevest Place, a week before the robbery. They had a big leather trunk, which was taken in a carriage on the morning of the robbery, while three parties strolled off. The body is believed to have been taken to the church portico, thence across Tenth street fence to No. 129th; thence boxed and taken to the Jersey City ferry; thence sent to the interior of the State. The exact location is known, says the Times, was discovered several days, but secrecy is kept to make sure of arresting everyone and securing the full punishment and making examples. Money has been largely spent. A prominent Southside undertaker is supposed to be implicated. Much credit is given the regular police. The police authorities do not confirm the report of the Times, and say neither they nor Judge Helton know aught of the robbers or location of the body.

It is believed the police have unravelled the mystery of the Manhattan Savings Bank robbery. This morning a man whose name appears on the police returns as Henry Vreland was arrested and arraigned before the bar of Police Court, when he was remanded to prison until further evidence could be obtained. The police and also the Judge are reticent on the subject at present. The prisoner is described as Henry Vreland, aged 25 years, a native of the United States, and a resident of Chauncy street, Brooklyn. Vreland is said to be a fictitious name.

MISSOURI.

ST. LOUIS, Nov. 15.—Congressmen Boone and Hooker, of the Congressional committee to examine and report on the advisability of transferring the Indian Bureau to the War Department, have reached here from an extended trip West.

Army officers generally think the transfer would be beneficial to the Indians, and many citizens of the West, and particularly on the Pacific slope, favor it. The Indians prefer remaining under the Interior Department. Congressman Boone, of the committee, says: "While the Indians have undoubtedly committed many outrages, the testimony before the committee shows that they have been provoked by bad whites."

GREAT BRITAIN.

LONDON, Nov. 15.—John Lomas & Co., chemical manufacturers, at Juron-on-the-Tyne, with a paid up capital of \$500,000, have failed. Their assets will probably realize 25 per cent. The failure occasions considerable anxiety in the Tyne chemical trade, which is in an exceedingly depressed condition, and prices lower than ever before. The only hopeful feature is that stocks are low.

Young, Sislow & Co., ship owners and insurance brokers, 69 Cornhill E. C., and salt makers Fourteen Andrew street, Bromley, E., have failed; liabilities, \$600,000.

Wilhelm, Priston & Co., of Hamburg, one of the largest houses in the China trade, have failed. Donner & Co., London, the merchants who suspended Wednesday last, were their agents here.

Switzerland did not denounce the convention of 1865 constituting the Latin Union because of any dissatisfaction at the proceedings of the recent Paris conference. On the contrary, its propositions were accepted, subject to ratification by the Chambers. The convention of '65 expires by limitation at the end of '79, when, unless denounced, it renews itself for 15 years. The action of Switzerland will open the way for the negotiation of a new treaty.

EDINBURGH, Nov. 15.—The High Court of the Judiciary has definitely refused to admit to the bar any more of the Glasgow Bank Directors.

FRANCE.

PARIS, Nov. 15.—The election of three life Senators occurs to-day. The Conservative candidates likely to succeed are Oscar De Valle, Bonapartist, said to be personally objectionable; Count De Hassenville, Orleanist, philanthropist and a man of unquestioned probity, and M. Baragou, Legitimist, who was unseated as Deputy from Recces, Department of Gard, and defeated on the second ballot. The latter was also a noisy and fearless speaker in the National Assembly and one of the promoters of the climax of the sixteenth of May. Much surprise is felt at his nomination.

What influence these elections will have on the Senatorial contest of January, it is believed, will be in favor of the Republicans, as showing that the conservative parties are still determined and combined on anti-Republican candidates and for war against Republican institutions.

VIRGINIA.

RICHMOND, Nov. 15.—A fire occurred at the Virginia penitentiary early this morning which destroyed a large three-story brick building over 200 feet long, in which were a cooper shop, carpenter shop, shave factory and machine shop. The fire originated in the engine room, and was accidental. Another building between the burning shops and prison took fire, and great excitement existed among the prisoners. It was saved, however, and the police force and citizen soldiers kept perfect order. Not an attempt was made to escape.

MARINE DISASTERS.

GIBRALTAR, Nov. 15.—The American brig Callao, from Philadelphia October 3d for Palermo, was abandoned at sea. The crew, with the exception of one person, were picked up by the Norwegian bark Arndal, from Baltimore October 4th for Trieste.

NEW YORK, Nov. 15.—The survivors of the crew of the George E. Thacher, Captain Johnson, from Boston for the West coast of Africa, makes the following report: After leaving Boston, October 18th, lat. 32 long. 53, we encountered a hurricane from the northeast, accompanied by a fearful sea, which stove a hole in the bow, and another sea carried away the rudder, tearing a hole in the stern and washing the Captain and one man overboard. The man was saved, but the Captain was lost. The same sea smashed in the top gallant forecabin, broke in the cabin doors and swept the decks. At 5 p. m. the mizenmast went overboard into the sea, smashing one

boat. The fore and mainmasts also went overboard, and the vessel began to settle so fast that the crew had barely time to launch a boat, saving nothing but the charts and compass and a little bread, but no water. Hoisting a blanket for a sail, they directed their course for the West Indies, as the nearest point.

DESTRUCTIVE FIRES.

ATLANTIC CITY, N. J., Nov. 15.—A fire this morning broke out in the grocery store of C. E. Adams, on Atlantic avenue, opposite the United States Hotel, which destroyed that building, together with E. S. Reed's drug store and residence, Lewis Reed's dwelling and stationery store, J. H. Skinner's boot and shoe store, and the residence of James Reed. The loss is from forty to fifty thousand dollars. Edward S. Taylor, a painter, fell dead from excitement at the fire.

PHILADELPHIA, Nov. 15.—A special from Bradford says a fire burned out five acres of the town. The Theater Comique, Biddle House, and ten buildings south of the Comique Theater were destroyed. Soon after 9 o'clock last night the alarm of fire was given and the fire department arrived shortly after 10. The Express office, ten buildings on Davis street north of the Biddle House, Boward & Syfany's machine shops, several oil wells and large piles of lumber were then burned. Loss between one hundred and two hundred thousand dollars.

MINOR DISPATCHES.

BOSTON, Nov. 15.—Captain John Sleeper, formerly editor and part proprietor of the Boston Journal, and known under the nom de plume of "Hawser Martingale," is dead, aged 83 years.

ROME, Nov. 15.—The overflow of the Tiber inundated the Ripetta, the Plaza of the Pantheon, Via Tor-dinona, Plaza Saint Angels, the Ghetto and all the lower streets of the city.

BOSTON, Nov. 14.—At a meeting of the ward and city committee of the workingmen's party last night, five members of the committee on nominations who attempted to run it in the interest of the Prince wing of the Democratic party were expelled from the committee.

POLITICAL NOTES.

The Lower House in the next General Assembly in New York will not contain Democrats enough to place one in each of the standing committees.

Gen. John A. Logan made a gallant fight for honest money in the last canvass, and the Legislature of Illinois will recognize his services by sending him back to the United States Senate.

General Butler has been interviewed by a reporter of the New York Tribune, and claims to be greatly encouraged at the future of the Greenback party.

The Greenbackers claim to have polled 877,000 votes in the October and November elections.

Incendiary Fire at London.

We learn from Postal Clerk R. M. Anderson that London had an incendiary fire after midnight Wednesday night, which might have been very destructive had it not been discovered as soon as it was. The discovery was made by parties coming on the packet boat from Kingston at about 1 o'clock, and it was found to issue from the building which contains Capt. D. R. Nelson's law office and Mrs. Denton's millinery store.

An entrance was effected by cutting a hole through the door. It was found that a fire had been kindled in a wardrobe in the millinery store and also in the office. The fire was extinguished before any great damage had been done, but a quantity of articles were stolen. It is said that suspicion rests on some parties, and an investigation will likely be had.

Fire in the Country.

We understand that the dwelling house of Mr. Woodson Daniel, who lives on Reeder White's farm, near the river, below the city, was consumed by fire last Wednesday. The family were all away from the house, as we learn, except a little girl, who undertook to kindle up a fire in the fireplace, and the kindling blazed up so as to set the roof on fire, by some means. She could do nothing, but attracted attention and help, and about half the contents of the house were saved.

Do you really, truly love me,
More than any girl you know?
Well, then hug me just a little,
If you must before you go.
Fold your arms around me tighter,
Have you never hugged before?
Draw me nearer, press me closer;
Can't you hug me any more?

H. W. CURTIS,

Successor to H. H. Smith & Co.
